

First Aid and Care Arrangements for Ill Students Policy

RATIONALE:

All children have the right to feel safe and well, and know that they will be attended to with due care when in need of first aid. This policy outlines the school's responsibility and procedures in respect of our "responsibility to provide equitable access to education and respond to diverse student needs, including health care needs".

EPHING VIEWS PRIMARY SCHOOL WILL:

- Administer first aid to children when in need in a competent and timely manner.
- Communicate children's health problems to parents when considered necessary.
- Provide supplies and facilities to cater for the administering of first aid.
- Maintain a sufficient number of staff members trained with a level 2 first aid certificate.

IMPLEMENTATION:

- A sufficient number of staff (including at least 1 administration staff member) to be trained to a level 2 first aid certificate, and with up-to-date CPR qualifications.
- A first aid room will be available for use at all times. A comprehensive supply of basic first aid materials will be stored in a locked cupboard in the first aid room.
- Basic first aid kits will also be available in room of the school, as well as the first aid room.
- Supervision of the first aid room will form part of the school nurse's daily duties. Any children in the first aid room will be supervised by a nurse/staff member at all times.
- All injuries or illnesses that occur during the school day will be referred to the school nurse who will manage the incident. If the nurse is not in attendance, injuries or illnesses will be referred to the administration staff.
- First aid treatment will be recorded on Compass or in the event of Compass not working, in the first aid book.
- All staff will be provided with basic first aid management skills, including blood spills, and a supply of protective disposable gloves will be available for use by staff.
- Any children with injuries involving blood must have the wound covered at all times.
- **No medication including headache tablets will be administered to children without the express permission of parents or guardians.**
- Parents of all children who receive first aid will receive a Compass notification indicating the nature of the injury, any treatment given, and the name of the teacher providing the first aid. For more serious injuries/illnesses, the parents/guardians will be contacted by the nurse or administration staff so that professional treatment may be organised. Any injuries to a child's head, face, neck or back must be reported to parents/guardian.
- Any student who is collected from school by parents/guardians as a result of an injury, or who is administered treatment by a doctor/hospital or ambulance officer as a result of an injury, or has an injury to the head, face, neck or back, or where a teacher considers the injury to be greater than "minor" will be reported on Department of Education Accident/Injury form LE375, and entered onto CASES21.
- Parents of ill children will be contacted to take the children home.
- Parents who collect children from school for any reason (other than emergency) must sign the child out of the school in a register maintained in the school office.
- All teachers have the authority to call an ambulance immediately in an emergency. If the situation and time permit, a teacher may confer with others before deciding on an appropriate course of action.
- All school camps will have at least 1 Level 2 first aid trained staff member at all times.
- A comprehensive first aid kit will accompany all camps, along with a mobile phone.

- All children attending camps or excursions will have provided a signed medical form providing medical detail and giving teachers permission to contact a doctor or ambulance should instances arise where their child requires treatment. Copies of the signed medical forms to be taken on camps and excursions, as well as kept at school.
- All children, especially those with a documented asthma management plan, will have access to Ventolin and a spacer at all times.
- The school nurse is to be responsible for the purchase and maintenance of first aid supplies, first aid kits, ice packs and the general upkeep of the first aid room.
- At the commencement of each year, requests for updated first aid information will be sent home including requests for any asthma, diabetes and anaphylaxis management plans, high priority medical forms, and reminders to parents of the policies and practices used by the school to manage first aid, illnesses and medications throughout the year.
- General organisational matters relating to first aid will be communicated to staff at the beginning of each year. Revisions of recommended procedures for administering asthma, diabetes and anaphylaxis medication will also be given at that time.
- It is recommended that all students have personal accident insurance and ambulance cover.
- Confidential records of all students with specific health needs are maintained securely in the first aid room for reference as required. A First Aid Register is also maintained noting ailments and treatment for all presenting students, via Compass.
